One of the curious sides of the English system of conducting affairs was revealed in connection with the death of the queen. It seems that in England when a monarch dies it is customary to have a long period of mourning, and business and pleasure are practically at a standstill. The money lost to tradesmen, theatre proprietors and others during such a time is very great, and therefore it has been necessary, since Queen Victoria's death, to shorten her advanced age.

The Resolving engine was engineering by Representative Willis, reimbursing the town in the sum of \$2,000 for money expended on account of the State, is making good progress this week. The State Board of Charity acknowledge the justness of the claim and raised objection to the Resolves. If we receive a bill, there is another move. There is \$8,000 now back in '03 which the Town carried against the State for several years and then charged to profit and loss. The present board was not responsible for that, but as they are succeeding so well, would it not be a good idea to dig up the old master and let it ever again. M. E. H.

say we are not running the People's Column out to eliminate from it such as is in our judgment ought not to go. The "People's Column" is open for the people to discuss town or any other matters and we allow the people a broad margin in the use of that space.

This time it is the collector of taxes of the town of Hingham who played and lost, but as usual, it was the town's money he lost, and now his bondsmen are lying awake nights. There is a good field for legislative work along the line of making it a penal offence to buy or sell (?) stocks, bonds or merchandise when there is no intent at delivery. A wager that certain articles will go up or down means simply that one side or the other will win in the hole when go.

CEMETERY FAIR.

Nineteenth Annual of Ladies Improvement Association of Weymouth and Braintree occurs Next Week.

First Fair of New Century will be a Record Breaker.

The nineteenth annual fair of the Ladies Cemetery Improvement Association of Weymouth and Braintree opens in Lincoln Hall, Weymouth, on Tuesday evening next, February 5th, and will continue through Wednesday and Thursday afternoons and evenings, February 6th and 7th.

The Ladies' Cemetery Association was organized about 30 years ago, with Mrs. Dr. F. E. Forstall as president, and Miss Lina Bagley as secretary. The object of the association was to care for and beautify the grounds of the Village Cemetery, which had, up to this time, been rather neglected, or had failed to receive regular or systematic care. To do this, it was necessary that money should be raised, and it was decided to have a fair. Committees were appointed to carry the vote of the association, and in due time the first cemetery fair was held, which proved to be a great success, yielding about \$500. A portion of this money was applied to the care of the grounds, and the balance deposited in the savings bank. Each year since that time fairs have been held, until we have now reached the 19th annual, and have passed into the 20th century. Part of the money raised has been set apart as a permanent fund and this has been added to, so that at present it amounts to about \$1,700 including the sum of \$500 pledged by Mr. Walter Forstall, son of our first president, who was very desirous that a chapel should be erected when a sufficient sum of money should be obtained to defray the cost. This is now one of the objects for which the association is working, and it is to be hoped the coming season will witness the inauguration of the work.

The management has worked unceasingly for the success of the first fair of the twentieth century, and an attractive entertainment has been arranged for each evening.

The entertainment of Tuesday, the opening evening, will be furnished by the Lord family of Quincy, assisted by Miss May reader.

On Wednesday evening, a drama in three acts, entitled "Uncle Robert" will be presented by local talent.

Thursday evening will present the Weymouth Dramatic Company will present the laugh farce entitled "Thirty Minutes for Refreshment."

The usual variety of useful and fancy articles will be on sale each afternoon and evening during the progress of the fair.

SUPPER AND DANCE.

Enjoyable Affair in Python Hall.

Weymouth Council, No. 747, Royal Arcanum, Entertainers Friends.

The members of the Royal Arcanum entertained at their annual entertainment supper and dance in Python hall, Weymouth, on Wednesday evening.

The entertainment consisted of a graphite concert by A. D. Wilbur, soprano solo by Miss Carrie Whittemore, readings by Miss Annie Ashe and selections by Hunt's orchestra of Weymouth.

At 9.30 the grand march was formed, and the company adjourned to the band hall where a beautiful repast had been prepared by the lady of the caterer, C. E. Richards.

After supper, dancing was enjoyed until 12 o'clock by about forty couples. Hunt's orchestra furnishing music.

Largely Attended Dance in Clapp's Hall.

The average voter, town clerk and others who have anything to do with caucuses and elections are of the opinion that there is no need of further complicating and mixing up election matters, but if some of the measures now before the Legislature should be placed upon the statute books no fellow could tell "where we were at."

Mrs. Carrie Nation with her little hatchet is making things lively for saloon keepers in "bleeding Kansas," but Kansas without a sensation of some kind would not be Kansas. From the earliest settlement of the territory it has furnished more sensations than any territory or state in the union.

Judge Dixon of Patterson, N. J., is entitled to words of encouragement from the whole world for the courage displayed in passing sentence upon the progress of the men tried before him for a most revolting death-murder.

A singular feature of English insurance has come to light in connection with the death of the late Queen. There were several thousands of policies held by individuals who had no relation whatever to her majesty and it looks from the statement that it was simply a bet of \$10,000 as between the Royal and the Insurance Company that the Queen would or would not live beyond a certain date.

Every state has its freak legislators and Michigan now comes to the front with a legislator who has introduced a bill to give a state of mind to the majority of families of children the scale begins at five and ends at eight. We are to see why the member should stop at so small a number. A redeeming quality of the bill is a clause which taxes unmarried men above thirty years of age for the purpose of carrying out the provisions of the law. We are waiting to see if the bill will have sufficient support to pass it.

We are one week nearer the annual town meeting than we were last Friday, and a week's talk in regard to town officers and town matters generally, has been filled up. There has been the usual amount of criticism of the several departments and more than the usual amount of speculation as to whether one or the other will succeed themselves or will be succeeded by others. These talks are being made up, some of which will be broken long before the election, and some of which will stand until the ballots are cast. We are repeatedly asked why we don't go for this or that in the People's Column. In reply we would

MY MICROBIAL DINNER
Now a Man Thought He Could Do
Women's Work and Was Disappointed.

BY CATHERINE LOUISE SMITH.

"I wonder, 'Thunder,' said my wife
doubtfully, giving me a searching look,
if you could get your own dinner
tonight. I want to go to a meeting of
the Suffrage club, and the maid is go-
ing."

Now, it has always seemed to me
that the more a man asserts his inde-
pendence the better. I felt pretty
doubtful about that dinner, but I
was going to let him have his
own dinner, I remembered, too, had
managed well at bachelor housekeep-
ing for a week. I had everything
convenient; never made the beds
because I wanted to let them have
a comfortable and decently dressed
and in consultation and that in union there
is strength I did not wash my dishes,
but let them collect and the day before
my mother returned put them in a tub
and turned on the water.

The success of the venture embold-
ened me to try again, but for reasons
best known to my own soul I did not
tell Maria. I simply said I could man-
age and would really enjoy the novel
experience. I told Maria that I had
nothing to do with the housework, and
that it would by no means prove
fatal. I resolved two things firmly—
that I should have a good dinner irre-
spective of the germ theory, microbes
and bacilli and that the dinner should
be served in a tub.

Five minutes later I had a sickening
feeling, for Maria had never told me
that the oven was hot. I got up and
made any such mechanical contrivance as a
gas stove. I wondered what under
the sun possessed the inventor of a
gas stove to put the oven down near
the floor. I am rather a portly man,
battered, scalped, scaly, like a Maha-
mud, and when I sat down I was drawn
about by the wind. I had arrived
from Constantinople to bid farewell
to him, as I had been ordered to Malta
to meet the Indian contingent.

"Not today," Villiers, but a revolt.

We shall meet again, but how?

Will it be when the Russians face the Brit-

was a campaign in progress. Edward

Piano Purchasers, Attention!

Isn't this the question you wish to solve before you purchase a piano: Where can I get the best possible value for the least possible money? Isn't it from the dealer who buys for spot cash, and gets all the discount, who has a small expense, and is satisfied with a modest profit?

Now that is the position I am in, and to prove it all you need to do is to see what you can elsewhere, and then come to me, and I fully believe I can save you quite a few dollars, on the same grade of goods.

THE SEA CALLS.

Like the wind whose cloudy bugle notes close up
Like a heavy rain, on his love, that pleads and pleads in
consequence of a thousand woes and pledges made
of you and me.

The sea is calling, calling, calling, "Galdi, return once more."

Suppose it had happened accidentally? Even as he thought he knew he was a coward. Even then he was thinking of the man who had suddenly come and made the man start? Almost unconsciously he opened his lips, and a harsh "Hello," broke from him.

Even his nerves were steel. He turned his sunken face and smiled over his shoulder.

"Hello, old man!" he responded amably. The water came and stood dumbly beside him, holding his hands tightly together behind his back, holding their shaking. He had forgotten Everett was a sailor.

He had been swimming, treading water farther and farther till it seemed impossible he could retain his balance, and then the waves beat reached up and beat him into the water to catch him and pull him with the surmounting thunder of anger at their failure.

A little farther, Fraser caught his breath.

"I'll be over in a minute," he said grimly.

Everett laughed easily. "But I say, old boy, you might just hang on to my legs for a minute, will you? I want to reach that great big just there, and it's just beyond me."

The man's hands folded immediately up at them just out of reach. Fraser stood motionless, moistening his dry lips.

Everett looked around. "You're mind, old man?" he said.

And mechanically the other stretched out his hand and obeyed.

Now—now—One movement of his finger—now the coming of his hand.

He caught the thought back, gasping for breath.

Everett leaned still farther. He half-gulped, then gasped.

"They're for Dolly, you know," he said. "To wear this evening."

The fingers opened as if by some sudden, powerful spring. They were a hand and then there was something else, rolling, rolling, striking and bounding sickeningly down that steep side.

For an instant the white face was upturned. "All right, old chap, I know—acident!" flouted up brokenly, and then there was a last hideous thud, and the water was greedily at the man's nostrils, and then—there was nothing but the swooping gull shrieked wildly and curled upward.

Fraser stood as it turned to stone, gasping, gasping, gasping, until at last the rolling eddies were that—that thing had disappeared.

Murderer! Murderer! Murderer! The man's muscles tensed, and he drew a deep breath. What an easy way to end it all! Just one little step. Those robes were very comfortable. That would make it easier to swim, and the sea would tell no tales, and then—then would be away from it all and would never have to bear the memory of hearing that she was married to Everett.

Married to Everett! Married to Everett! The words clanged in his ears. He leaned aloud and bent heavily over the edge of the water.

A mist came before his eyes, and his breath came in a choking heave to his throat. The water was very comfortable. That would make it easier to swim, and the sea would tell no tales, and he thought he was falling—falling down that intermediate space.

Then he must passed, the ground stopped, the water stopped, and he could not find himself still standing safe and sound on firm earth.

Senator Hear's address to the Legislature was very finished and literary and is well worth reading.

"To Washington," he said, "we should enter if the question of national policy be whether we shall enter on a career of foreign domination. To the wisdom of Lincoln we should refer the question of what constitutes valid reasons for war, what is the duty of good citizenship when the country is in a war in which it is strong, or what are the rights which belong everywhere to that being which we call a people; or what is the line of distinction between power and right when a strong nation has to deal with a weak one; or whether it be lawful for one people to subdue another to its will; what consent of the governed, if any, is necessary to the exercise of just powers of government; whether it is right to fight a righteous war without representation, whether it be lawful to hold in a state who are subjects and not citizens."

The above words of the Senator suggest that he still holds to some of his independent ideas regarding the Philippines.

The desire to illustrate colors from the list of street car conductors does not meet with favor from the many conductors who love the sweetest vegetable. In Chicago the employees of the street railway are forbidden to offend patrons by an "uncommon breath" on penalty of suspension or discharge. But we understand that the patrons still have some privileges unbridled which will be hardly fair to the conductors.

Rev. Dr. Lyman Abbott is no doubt one of the most profound scholars and able speakers of the day but the Indian question, the negro question, the woman question, the question of the right of the majority was a pretty heavy load for his work for one man to map. The lecture, as was expected, was very interesting but some of the questions are yet unsettled.

The term of three members of the school committee will expire during the next six weeks, and there is a definite movement being made to place one or more women on the board. Nominations papers have been taken out for this purpose and at the same time we have heard the inquiry, "Will either of the three gentlemen whose terms have expired be gallant enough to stand up in the caucus, which will be held next Thursday night and withdraw in favor of one of the women?"

A few figures from the town clerk's report in the annual book now being printed at this office, show that in the vital statistics there is but little change from year to year. There were 111 marriages against 99 for the previous year, 214 births as against 226, and 262 deaths with 201 the previous year.

ENTERED AT THE POST OFFICE AT Weymouth
MASS., AS SECOND-CLASS MATTER.

FRIDAY, FEB. 22, 1901.

A REVOLUTION IN RAILROAD
FARES.

A bill has been introduced into the
House of Representatives of the Massachusetts Legislature, accompanying a peti-
tion of citizens living in certain suburbs of Boston, the petition asking for legislation to require railroad companies to
establish five cent passenger fares for continuous trips within the limits of the city of Boston. This bill provides, first,
that "Every railroad company engaged in the transportation of passengers in the city of Boston, shall establish a fare on
continuous trips within the city of Boston, and shall issue to the public strips, or packages, containing not more than twelve tickets,
each good for a single trip between any
points within the limits of said city, at a
rate not exceeding five cents a ticket;" and, second, that the fare thus established
"shall go into effect on the first day of August, in the year 1901."

To call upon the whole body of Massa-
chusetts citizens, carrying out the
schemes of a few disgruntled passengers
living within the suburbs of the city of Boston is an absurdity; and if it becomes
evident that such a call is likely to result
in success for the schemers, it becomes
iniquitous. From beginning to end this
measure has not even a shadow or pre-
tense of equity in it. It would be im-
possible to enact these provisions into
law without at once necessitating a re-
vision of the whole system of fares,
for the fares involved, and the
long-distance travel—the travel outside
the suburban limits on these roads, would
surely be called upon to make good the
sacrifice of revenue thus imposed. From
this standpoint all the towns and cities
along the lines of these railroads are in-
terested in the outcome of this proceeding;
and we believe it will be impossible
to impress our Legislators with
any idea that the petition and bill thus
presented to the Legislature should have
any favorable consideration whatever.
